

College Website Testing Report

Bharathiyar Institute of Engineering for Women (BIEW)

Website: <https://biew.ac.in/>

Objective

The objective is to verify accessibility and basic functionality of important pages, navigation links, admission information, contact information, images and website content.

Test Environment

Website: BIEW official website; Browser: Google Chrome; Device: Laptop / Mobile; Test type: Functional and UI/content verification.

Conclusion

The main public pages were accessible during testing. A few content-quality and maintenance improvements were identified. Mobile responsiveness should be manually verified on an actual device.

Test Results

ID	Test case	Result
TC-01	Home page	PASS
TC-02	About BIEW	PASS
TC-03	Academics content	PASS
TC-04	Programmes Offered	PASS
TC-05	Admission Procedure	PASS
TC-06	Eligibility Criteria	PASS
TC-07	Fees Structure	PASS
TC-08	Admission Contact	PASS
TC-09	Contact Us	PASS
TC-10	Main navigation links	PASS
TC-11	External links	PASS*
TC-12	Images/content	PASS
TC-13	Page content/scrolling	PASS
TC-14	Spelling/content	REVIEW
TC-15	Mobile responsiveness	MANUAL TEST

Observations / Improvements

- “Usefull Links” appears to be a spelling/wording issue; “Useful Links” is recommended.
- Older news/events remain visible and can be reviewed for content freshness.
- Mobile responsiveness requires manual verification on a real phone or browser device emulation.
- Time-sensitive admission information should be reviewed and updated when required.
